

Sorting Algorithm Visualizer

 An interactive web application that visualizes sorting algorithms step by step using smooth animations. This project is designed to help beginners understand sorting algorithms visually instead of just reading theory.

Algorithms Implemented

- ✓ Bubble Sort
- ✓ Selection Sort
- ✓ Insertion Sort
- ✓ Quick Sort
- ✓ Merge Sort

Features

- ✨ Dynamic number of bars using a slider
- ⚡ Adjustable sorting speed
- 🎨 Color-coded comparisons, swaps, and sorted elements
- 🎬 Smooth animations using `async / await`
- 📱 Responsive UI built with Bootstrap

Tech Stack

- HTML5
- CSS3
- JavaScript (ES6+)
- Bootstrap 5
